

ARRYA A

Frontend Developer | React.js | Full-Stack (MERN Fundamentals)

Kozhikode, India | arrya98@gmail.com | +91 9443046717 | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of experience building responsive, scalable web applications using React.js. Skilled in reusable UI development, API integration and translating designs into production-ready interfaces. Fundamental knowledge of the MERN stack (Node.js, Express.js, MongoDB) gained through internship and hands-on project. Open to Frontend, Backend and Full-Stack Developer roles.

TECHNICAL SKILLS

Frontend Development: React.js, JavaScript (ES6+), Responsive design, CSS3, HTML5, Tailwind CSS, Material UI, Bootstrap, Props and state, Reusable component design.

Backend & Database: Node.js, Express.js, MongoDB, MySQL, Axios.

Tools & Practices: GitHub, VS Code, Code reviews, Vite, Cross-browser compatibility, Figma-to-Code, Claude (AI-assisted development).

PROFESSIONAL EXPERIENCE

React Developer — Bpract Software Solutions, Kozhikode

May 2025 – Present

- **Built the front-end interface using Material UI, Tailwind CSS**, ensuring a clean and responsive user experience.
- Developed and maintained React.js web applications for **MLM and e-commerce platforms**, supporting core business operations across multiple client-facing modules.
- **Built reusable React components** for forms, dashboards and charts, integrating REST APIs to enable dynamic data rendering across the application.
- **Developed a reusable table component** with support for sorting, filtering, pagination and dynamic columns, reducing code duplication across multiple modules.
- **Utilized React Hook Form with Yup validation** to create robust form schemas, improving form reliability, performance and error handling across the application.
- **Developed dedicated modules** for Subscriptions, Maintenance, Products and User Management, streamlining key business workflows for end users and admins.

Tech Stack – React.js, JavaScript (ES6+), REST APIs, Axios, Material UI

ReactJS Developer — White Matrix Software Solutions, Freelance – Remote

Nov 2024 – Jan 2025

- **Developed the front-end of KSRTC's Fleet Management System** using React.js, building responsive and reusable components for a large-scale, multi-module platform.
- **Converted Figma designs into pixel-accurate, fully responsive interfaces with Bootstrap**, ensuring visual and functional consistency with design specifications.
- **Built core modules** for Admin, Vehicle, Driver/Conductor, Trip Management and Analytics, supporting real-time fleet operations.
- **Integrated REST APIs** using Axios and developed data tables with search, filtering and pagination for efficient data handling.
- **Collaborated with the backend team** (Node.js, Express.js, MongoDB) in an Agile environment using Git for version control.

Tech Stack – React.js, JavaScript (ES6+), Bootstrap, Axios, Figma-to-Code, Node.js, Express.js, MongoDB

INTERNSHIP & TRAINING EXPERIENCE

MERN Stack Developer Intern — Luminar Technohub, Kochi

Oct 2024 – Apr 2025

- Built full-stack CRUD applications using the MERN stack (MongoDB, Express.js, React.js, Node.js), covering both front-end and back-end development.

- Gained hands-on experience in REST API design, state management and database integration through project-based assignments.
- Applied MERN stack concepts to simulate real-world use cases, strengthening full-stack development fundamentals.

Tech Stack – MongoDB, Express.js, React.js, Node.js, REST APIs, Tailwind CSS, Material UI, Bootstrap

MERN Full Stack Training — Luminar Technolab, Kochi

Mar 2024 – Sep 2024

- Completed an intensive full-stack training program covering MongoDB, Express.js, React.js and Node.js.
- Built hands-on projects applying REST API design, component architecture and state management concepts.
- Strengthened frontend fundamentals in JavaScript (ES6+), React hooks and responsive UI development.

.NET Developer Intern — Cognizant Technology Solutions, Coimbatore

Dec 2019 – Apr 2020

- Completed training and internship focused on .NET development.
- Gained exposure to C#, .NET fundamentals and software development practices.
- Worked on basic development tasks as part of the internship program.

PROJECTS

GadgetHub

- Built a React-based application enabling users to browse, add, update and manage products efficiently.
- Implemented full CRUD functionality, allowing users to view detailed product information and perform seamless create, read, update and delete operations.

Tech Stack – React.js, JavaScript (ES6+), REST APIs

Project Fair

- Built a project showcase platform enabling users to register, log in securely and explore projects submitted by all users on a shared dashboard.
- Implemented user-specific project management, allowing logged-in users to create, update and delete their own project listings.
- Designed secure authentication flows to protect user accounts and project data.

Tech Stack – React.js, Node.js, Express.js, MongoDB

Safety Klik – Wearable device for women's safety

- Designed a wearable sensory device that alerts parents/guardians and shares the victim's live location when activated, enabling rapid emergency response.
- Integrated GPS tracking to allow real-time location monitoring, helping ensure user safety through timely intervention.

Tech Stack – IoT, GPS Integration, Embedded Systems

Smart Crop Protection

- Built an image processing system to detect wild animals in agricultural fields and automatically trigger animal-repellent buzzers, reducing crop damage without human intervention.
- Implemented an alert mechanism to notify farmers via message when an animal is detected, enabling faster response.

Tech Stack – Image Processing, IoT, Embedded Systems

EDUCATION

Bachelor of Engineering, Computer Science and Engineering

2016 – 2020

Sri Ramakrishna Engineering College, Coimbatore

CGPA: 8.32/10

CERTIFICATIONS

- MEAN/MERN Full Stack — NACTET
- Introduction to Operating Systems — NPTEL, IIT Madras
- Social Networks — NPTEL, IIT Madras
